

Tool Bags Barrel Bag (Mesh)

Leading Edge has developed a (Mesh) Barrel Bag designed to carry multiple tethered tools, components, portable equipment and materials. The bag has been optimised for specialist high access technicians working suspended on static lines. Design minimises the risk of snagging whilst keeping items safe inside the bag by use of the quick draw roll back closure system. Attachment to the technicians harness/belt is via a selection of user defined attachment options (see below). With an overall load limit of 30kgs, it comes fitted with five individual structurally rated 5kgs anchorage points for your tool tethers.

FEATURES

- A choice of four securing arrangements method: Belt Loop / Eyelets / Triple Action Velcro Straps / Triple Action Safety Buckle (see 'Tool Bag & Holster Fixing Options' page)
- The bag has been specially designed to keep items safe inside (with a quick draw closure system) during transportation and access activities
- An ultra light weight bag that is half the weight of PVC alternatives
- The mesh bag provides ventilation allowing air to circulate in the bag.
- Natural illumination through the mesh also assists the user to easily identify what's in the bag
- Five internal structural 'D' ring anchorage points each rated up to 5kgs (Dynamically tested - see 'testing pages' for more info). Rating using a 2:1 safety factor
- Top opening and bag depth has been configured to limit accidental spillage of contents
- Body shell uses structural marine mesh (synthetic woven multi-braid fabric encapsulated in a plastic coating), premium industrial components, 'soft edged', for wear reinforcement and comfort
- Individually serialised for clear easy inspection, full traceability and control
- Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet
- Depth: 33cm / Diameter: 26cm / Volume: 22L / Weight: 0.30kgs
- Manufactured at our product factory in the UK

Code	Size	Description
TBBBML	Loop Fastening	Slides onto standard belts up to 50mm wide
TBBBME	2x Eyelet Fastening	Hung from belt/gear loops using a connector
TBBBMV	2x Velcro Fastening	Wraps around fixing point with triple lock action
TBBBMB	2x Buckle Fastening	Secures around fixing point with triple lock action
