

FEATURES

Designed to carry tools and parts in 3x main segmented compartments, and 1x large mesh pocket internally, a document mesh pocket externally on the front

Unique large oval lid opening, resulting in maximum internal bag access

Built to withstand the rigors and performance demands of the trade professional, incorporating reinforced seams, structurally optimised to cope with extreme use

Fully adjustable shoulder Straps and rubber top carrying handle

Advanced external Velcro fixing point featuring a double (over-lock) system for a very strong 5kg rated secure fastening point. This allows the bag to be anchored at height

Comfort carrying, the rucksack back allows air to flow through a quilted reinforced closed cell foam panel which is covered by mesh, creating air channels and pockets design to assist back support and carrying heavy loads in all-day use

6x internal structural anchorage points each rated for hand tools up to 5kgs (Dynamically tested - see 'testing pages' for more info). Rating using a 2:1 safety factor

Individually serialised for clear easy inspection, full traceability and control

Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet

Premium outer shell (UV stabilised and mildew resistance), structural marine mesh, premium industrial webbing, aluminium buckles, reinforced dual layer density foam core, defence grade components, soft 'edged' for comfort and wear, ergonomically contoured profile

Height: 47cm / Width: 32cm / Depth: 20cm / Volume: 30L / Weight: 1.2kgs

Manufactured at our product factory in the UK

Tool Bags Rucksack (PVC)

Leading Edge has developed a special rucksack to carry tool safety equipment needed by trade professionals. Designed for durability and performance when it matters working in the harshest environments. The rucksack allows for greater tool loads to be carried with the weight being dispersed more effectively, offering optimised back protection through ergonomic design for longer duration, reducing back strength fade, increasing work performance.
