

### Tool Bags (MEWP - Scissor) Standard Bag

Leading Edge has developed a tool bag specifically for use with powered access machines. The bag is specially configured for attachment to the handrail, designed to fix both at the top and bottom of the bag within the basket. Recognising the benefits for the trade professional for directly attaching a tool bag onto a MEWPs and Scissor lift, providing a tool safety solution when working out of powered access across most packages and trades on-site.

#### FEATURES

- Designed to carry tools and parts in 3x main internal segmented compartments, 3x front deep mesh pockets, and 2x drain holes make this a versatile tool holster
- The bag fixes directly onto the handrail which means that all the tool weight is transferred onto the MEWP
- A choice of four securing arrangements method: Belt Loop / Eyelets / Triple Action Velcro Straps / Triple Action Safety Buckle (see 'Tool Bag & Holster Fixing Options' page)
- 8x structural anchorage points rated for hand tools up to 5kgs (Dynamically tested - see 'testing pages' for more info). Rating using a 2:1 safety factor
- Individually serialised for clear easy inspection, full traceability and control
- Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet
- Height: 35cm / Width: 45cm / Depth: 17cm / Volume: 20L / Weight: 0.60kgs
- The holster will accommodate standard handrails sizes and scaffold tubing etc
- Top opening and bag depth configured to limit accidental spillage of content
- Removable fixing Straps that allows for the option to move it from machine to machine
- Defence high grade polyester (UV stabilised and mildew resistance) fabric outer shell, structural marine mesh, premium industrial webbing, aluminium buckles, soft 'edged' for wear and reinforcement, manufactured at our product factory in the UK
