

Tool Bags - Large Bag (PVC)

Leading Edge has produced a top quality large tool bag. Made in defence grade materials as well as ergonomically made for load performance. Designed for the trade and skilled professional where it's necessary to carry as well as tether small items at height. The bag provides structural anchorage points each one rated to 5kgs. Attachment to your harness/belt is by way of a variety of user specified connection methods.

FEATURES

A choice of four securing methods is available: The fixing arrangements include either: Belt Loop/ Eyelets / Triple Action Velcro Straps / Triple Action Safety Buckle (see 'Tool Bag & Holster Fixing Options' page)

The bag provides four structural 'D' ring anchorage points each rated up to 5kgs (Dynamically tested - see 'testing pages' for more info). Rating uses a 2:1 safety factor

Designed to carry tools and parts up to 20kgs in the main large compartment, with a deep mesh side and front pockets, c/w drain hole

Ergonomically optimized for user comfort and weight distribution, with a top opening and bag depth configured to limit accidental spillage

Built to withstand the rigors of extreme military, utility and construction environments being manufactured from defence high grade polyester (UV stabilised and mildew resistance) fabric outer shell, structural marine mesh, premium industrial webbing, aluminium buckles, soft 'edged' for wear and reinforcement

Individually serialised for clear easy inspection, full traceability and control

Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet

Height: 33cm / Depth: 12cm / Width: 32cm / Volume: 12L / Weight: 0.40kgs

Manufactured at our height safety product factory in the UK

Code	Model	Description
