

Tool Bags Linesman PRO Bolt Bag (Mesh)

Leading Edge has developed a specialist Linesman's pro mesh bolt bag in conjunction with the National Grid Plc. The design enhancements include an enlarged 'neck' opening to allow a gloved hand access, deeper body to prevent accidental spillage of contents during access activities. The base has triple layer reinforcement combined with all structural parts triple sewn. The bags mesh body allows natural illumination for better internal visibility and ventilation, whilst being super lightweight, in being half the weight of PVC variants.

FEATURES

- Pro bolt bag design incorporates a quick draw elasticated closure system configured to provide a secure method of retaining items within the bag during access activities
- A choice of four securing arrangements method: Belt Loop / Eyelets / Triple Action Velcro Straps / Triple Action Safety Buckle (see 'Tool Bag & Holster Fixing Options' page)
- Ergonomically designed to distribute loads more evenly in making it easier to wear when full
- The bolt bag base has 2 layers of structural mesh and 1 layer of clear acrylic, giving superior strength and wear characteristics, with all structural parts of the bag are triple sewn
- 1 x structural 'D' ring anchorage point rated up to 5kgs (Dynamically tested - see 'testing pages' for more info). Rating using a 2:1 safety factor
- Top opening and bag depth has been configured to limit accidental spillage of contents
- Structural mesh body allows natural illumination for better internal visibility and ventilation
- Manufactured incorporating extreme structural marine mesh (synthetic woven multi-braid fabric encapsulated in a plastic coating), premium industrial grade components, 'soft edged', for wear reinforcement and comfort
- Top opening: 15cm diameter / Height: 24cm / Volume: 4.5L / Weight: 0.10kgs
- Individually serialised for clear easy inspection, full traceability and control
- Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet
- Manufactured at our height safety product factory in the UK

Code	Model	Description
LINESBAG2L	Loop Fastening	Slides onto standard belts up to 50mm wide
LINESBAG2E	1x Eyelet Fastening	Hung from belt/gear loops using a connector
LINESBAG2V	1x Velcro Fastening	Wraps around fixing point with triple lock action
LINESBAG2B	1x Buckle Fastening	Secures around fixing point with triple lock action
