

Tool Bags - Small Bag (Mesh)

The Leading Edge Small Tool Bag (Mesh) is an extremely light-weight specialist bag. The structural mesh body permits natural illumination for superior internal visibility as well as air flow. Developed for weight sensitive professionals that are required to carry and tether small items at height. The bag provides three structural 'D' ring anchorage points each rated up to 5kgs (Dynamically tested - see 'testing pages' for more info). Rating uses a 2:1 safety factor. Attachment to your harness/belt is via a selection of user defined attachment options.

FEATURES

A choice of four securing methods is available: The fixing arrangements include either: Belt Loop / Eyelets / Triple Action Velcro Straps / Triple Action Safety Buckle (see 'Tool Bag & Holster Fixing Options' page)

Structural mesh body allows natural illumination for better internal visibility and ventilation

The bag provides three structural 'D' ring anchorage points each rated up to 5kgs (Dynamically tested - see 'testing pages' for more info). Rating uses a 2:1 safety factor

Designed to carry tools and parts up to 15kgs in the main compartment, with side and front pockets

Ergonomically optimized for user comfort and weight distribution, with a top opening and bag depth configured to limit accidental spillage

Manufactured incorporating extreme structural marine mesh (synthetic woven multi-braid fabric encapsulated in a plastic coating), premium industrial grade components, 'soft edged', for wear reinforcement and comfort

Individually serialised for clear easy inspection, full traceability and control

Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet

Height: 24cm / Depth: 9cm / Width: 13cm / Volume: 3L / Weight: 0.10kgs

Manufactured at our product factory in the UK

Code	Model	Description
