

Tool Tether (Tape Measure Anchor)

The (Tape Measure) tool holster made by Leading Edge in the UK has been uniquely developed to provide a secure harness cradle for professional tape measures required by the trade. The design is configured to allow normal unimpeded free retraction and locking operation, whilst providing a rated anchorage point to connect to a tool lanyard when working at height, or to prevent loss.

FEATURES

- Advanced design features a double (over- lock) velcro fastening system
- The tape measure holster allows direct tool attachment via a anchorage point
- Structural integrity of holster is rated for a hand tool up to 5kgs (Dynamically tested - see 'testing pages' for more info). Rating using a 2:1 safety factor
- Individually serialised for clear easy inspection, full traceability and control
- Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet
- Lanyard weight: 0.01kgs (without connectors)
- We offer 3 sizes of holsters to cover all tapes (M/L is the most common size purchased)
- The design allows flexibility in both depth and width sizing for secure tape containment
- Built to withstand the rigors and performance demands of the trade professional
- Manufactured at our product factory in the UK
