

Tool Belts PRO-Anchor (Fixed Belt Loop)

The PRO-Anchor (Fixed Belt Loop) is the simplest belt retro-fit tool tethering anchorage fastening. Your tool belt is simply threading directly through the fixed belt loop on the anchor to provide a direct tool attachment point. Each Pro-Anchor (Fixed Belt Loop) provides a structurally rated single or double 'D' ring configuration to 10kgs (dynamically tested to 20kgs) anchorage for tool tethering.

FEATURES

Simple self-fitting allows easy retro-fitting onto your existing tool belt (Maximum belt width 50mm)

Overall maximum safe working load of 10kgs (Dynamically tested - see 'testing pages' for more info). Rated using a 2:1 safety factor with either a single (10kgs) or double 'D' ring configuration (5kgs each)

Manufactured using industrial webbing, premium components and structurally sewn for wear reinforcement and strength

Individually serialised for clear easy inspection, full traceability and control

Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet

Height: 10cm / Width: 5cm / Weight: 0.01kgs

Manufactured at our product factory in the UK
