

Tool Belts (theBlade) Back Support Pad

(theBlade) back support pad is configured to be fitted with (theBlade) tool belt. (the blade) support pad has been designed to allow greater tool loads due to the weight being more evenly distributed, offering optimised back protection through better ergonomics, reducing back strength fade, enabling the wearer to work more efficiency and for longer durations.

FEATURES

- Design configured for the retro-fitting of a tool belt c/w tool bags and holsters
- Lightweight, flexible, and with shoulder brace attachment loops fitted
- Manufactured to withstand the rigors of extreme industry and marine environments
- Available in a range of colours: Black / Hi Viz
- Will accommodate standard (50mm) width existing universal tool belts
- Reinforced design to assist back support and carrying heavy loads in all-day use
- Premium outer shell, reinforced dual layer density foam core, defence grade components, soft 'edged' for comfort and wear, ergonomically contoured profile
- Individually serialised for clear easy inspection, full traceability and control
- Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet
- Lanyard weight: 0.18kgs (without connectors)
- Manufactured at our height safety product factory in the UK
