

Tool Belts (theBlade)

(theBlade) tool belt completely eliminates the necessity for traditional size adjustment fittings, reducing the risk of snagging in-turn increasing wearer safety. This is achieved using a totally unique smooth outer belt, combined with very clever inner size adjustment design. Optimised for all-day worker comfort through using reinforced dual layer foam core and premium components.

FEATURES

- Totally unique design (inner adjustment) for added safety in the work place
- Smooth anti-s snag outer belt (free of belt adjustment loops) reduces snagging
- Double action safety buckle in defence grade plastic for optimum configuration
- Lightweight belt design, flexible, manufactured to withstand the rigors of extreme industry and marine environments
- Available in a range of colours: Orange / Black / Hi Viz
- Standard width (50mm) to take existing universal tool bags and holsters
- Reinforced design to assist back support and carrying heavy loads in all-day use
- Rated for hand tools up to 30kgs (Dynamically tested - see 'testing pages' for more info). Rating using a 2:1 safety factor
- Individually serialised for clear easy inspection, full traceability and control
- Issued with a 'Declaration of Conformity' product certificate and 'Final Inspection' sheet
- Lanyard weight: 0.20kgs (without connectors)
- Premium webbing outer shell, reinforced dual layer foam core, industrial grade Velcro, soft 'edged' for comfort and wear, large 50mm double action safety buckle
- Manufactured at our height safety product factory in the UK
