

Tool Tether (Large) Stainless Screw Gate Karabiner

Specified by discerning trade professionals requiring greater performance for use in demanding field environments. The larger size makes it easier to handle and operate gloved. The karabiner screw gate locking profile insures against accidentally release/opening for increased security. The stainless steel body material provides better durability and improved smoother fastening for longer life. Our karabiners are specially manufactured for optimum strength to size ratio, making them fit for purpose. All connectors are rated to work with all leading edge tool systems, safety lanyards, structurally rated holsters, bag and belt loops etc.

FEATURES

- Karabiner has a screw gate opening and locking action
- Made from 316 stainless steel
- Rated and tested for hand tools up to 5kgs
- (Dynamically tested - see 'testing pages' for more info).
- Rating using a 8:1 safety factor
